

Trane Commercial Controls  
F50N02-820, 50N02A & B-820, 50E70-820  
2017 Launch

---

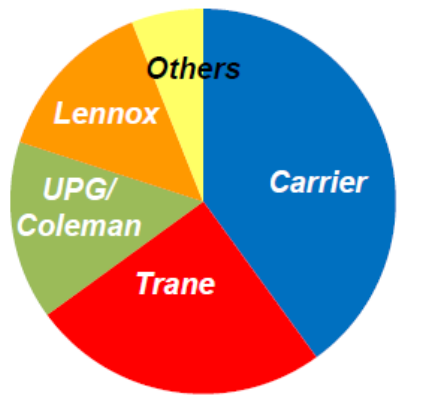

6/23/2017

# The Target Market

## Why We Are Launching Trane Commercial Products

Commercial  
Share of Market

Carrier & Trane have dominated the commercial market and have the largest installed base

- **Trane Has a Large Installed Base**
  - Produced Units with **Electromechanical** Control Boards Since 1990
  - Produced Units with **Communicating** Control Boards Since ~ 2002
- **We Have the Products as an OEM Supplier**
  - Started with Fenwall, Texas Instruments
  - Moved to majority W-R, one UTEC SKU
- **Expands W-R Presence Outside of Residential Split System Market**

# Trane Commercial Basics

## Three Product Platforms, Two Ignition Types

**Impack™ \*** 1.5-5 TON  
YCY, YCC, YCZ,  
DCY, DCZ

**Spark Ignition**

\* Note: This is also a residential product where package units are prevalent

**Precedent™** 3-10 TON  
YSC, YHC

**Spark Ignition**

**Voyager™**

12.5-25 TON YCD

27.5-50 TON YCD

**HSI**

# Trane Commercial Has Two Families Of Controls Electromechanical And ReliaTel™ Communicating

- The W-R Controls Being Released For 2017 Are All **Electromechanical** Family
- Plan Is To Follow-up With **Communicating** Boards in 2018 To Complete The Offering

## 2017 Launch

HSI &  
Spark

4-pin and 9-pin  
connectors

## Future Launch

HSI &  
Spark

All Comm  
boards have  
12-pin  
connectors

# Trane Rooftop / Package Unit Controls

July 2017 First Launch

50E70-820

50N02B-820

F50N02-820

## Overview

- OEM Direct Replacement Boards for Trane Commercial Units from the Original OEM Supplier
- 50E70 Hot Surface Ignition
- 50N02A,B Direct Spark Ignition. Different Cooling Off Delay Timings
- F50N02 Accessory Adaptor Board and Harnesses for Spark Controls
- Thousands Installed Since Early 1990's

## Features

- Easy to Install
- Full Color Boxes
- Complete Cross Reference on Box
- Instruction Sheet
- Fault Code Label, Accessory Parts to Meet or Exceed OEM Offering
- New Box Artwork to Communicate Product Positioning

## Competition

**Furnace Adapter Board**  
F50N02-820 | Trane

Used with 50N02A/  
50N02B Controls

Includes:  
9 Pin to 9 Pin Harness  
9 Pin to 12 Pin Harness

For Packaged Units

Trusted by PROs

1-Year Limited Warranty

EMERSON

- Initial production used a Texas Instruments Spark Module with mounting screws.
- The adapter mounts to the existing screw holes and converts to plastic stand-off mounting
- Newer and already converted units will not need the adapter. We DO NOT include with the control boards because Trane doesn't.
- Wiring harnesses adapt old system wiring to new control board pinouts

**Drop-in OEM Direct Replacement Board**

- Initial production used a Fenwall HSI Module with mounting screws. It then went to a Texas Instruments standoff mount control.
- The included adapter mounts to the existing screw holes and converts to plastic stand-off mounting
- Newer and already converted units will not need the adapter. We include because Trane still does.
- Wiring adapter connects control to 24VAC transformer when needed
